

## About me

As an engineering student at ENSEEIHT, I am naturally curious and eager to understand the world around me.
Passionate about sports and general knowledge, I place great importance on perseverance, open-mindedness and teamwork.

Student

## Education

### (2026-2029)
**ENSEEIHT**
Mechanical Engineering and Hydraulic Engineering

### (2024-2026)
**LYCÉE FAIDHERBE**
Two-year intensive preparatory programme in Mathematics and Physics (MP2I → MPI(*))

### (2021-2024)
**LYCÉE SAINT PAUL**
French Baccalaureate

## Experience

### August 2024
**TEMPORARY ASSISTANT – PUBLIC FINANCES (DGFIP)**
Contributed to the processing of administrative files, developing strong organisational skills and attention to detail.

### July 2023
**HARVEST WORKER**
Welcomed farmers, collected and analysed grain samples, and managed grain storage facilities. This role required adaptability and the ability to work long hours.

### June 2020
**IT ENGINEERING INTERN – UNIS**
Joined a young software development team, gaining insight into the work of software engineers through observation and analysis.
